## **A MESSAGE FROM ETHAN**

I am a Life Scout in Knoxville, TN. Part of being a Boy Scout is working to achieve our highest rank, Eagle. For the Eagle rank, a scout must choose, plan and execute a project that benefits the community. The project I have chosen to take on is rebuilding the blacksmith shop for Ramsey House. The house is important to our area for many reasons, not the least of which is the preservation of our history.

I chose this project because I enjoy history and understanding how our nation became the great place it is today. I am also an aspiring blacksmith. When I learned that Ramsey House wanted to

recreate their blacksmith shop, I knew it was the perfect fit. The project means a lot to me.

Many people have told me this project is too big, or it's too hard and I should scale it down to something easier to accomplish, but I disagree. I think we, young people, should do hard things - it builds character, work ethic and determination. It won't be an easy project, I know that, but with your help, and the support of my family and friends, I believe I can make it happen. There are many ways you can help with the building of the Blacksmith's Shop. You can read about them on the back panel of this brochure. Will you join with me and help me make this happen? It's going to be a project you can be proud to be part of, I promise you that.

## **Why Ramsey House?**

Historic Ramsey House is a 1797 house museum open to the public for guided tours. The Knoxville treasure includes a visitor center with a museum shop and exhibits to further tell the story of the Ramsey family, one of Knoxville's earliest settlers,

Reestablishing the buildings that once stood on the Ramsey Plantation adds value to our community, increases tourism and helps to tell the story of East Tennessee. Losing pieces of historic sites like the out-buildings at Ramsey House is like losing part of our East Tennessee identity. Help us bring those buildings back.
